

YOUR BEST DEFENSE AGAINST VIRUSES

Immunocal, “the” most important natural supplement you will ever use!

Immunocal is specifically formulated, exclusively for Immunotec in the USA, to help maintain a strong immune system. Special proteins in Immunocal, called “Immunoglobins” elevate antibodies which fight foreign invaders (viruses) in the body. Glutathione (GSH) our “Master Antioxidant, the body’s most powerful healing agent” Dr. Jimmy Gutman MD

Listed in the US & Canadian MD’s drug guides, the US PDR, CDN CPS

Immunocal has been:

Medically proven to raise cellular GSH.

Used in hospitals in North America, including Veteran’s Hospitals in the USA.

28 universities involved in Immunotec research

Researched at McGill University Research Centre (40+ years) prior to marketing

Published in 48 studies by doctors & scientists from top global institutions

Published 61 research articles, 39 clinical studies, published in 25 different respected medical journals

Coronavirus:

Glutathione, according to Dr. Jimmy Gutman MD, former Professor of Emergency Medicine at McGill University, has been shown in hundreds of studies, many listed in PubMed.gov to have a positive effect in fighting viruses from the common cold to the flu and many different viruses. It appears that the majority of viruses thrive in an environment of low glutathione.

Very important: Glutathione will NOT prevent viruses from attacking but they will shorten/weaken the attack by viruses. Health Canada Approves Medical Health Claim stating that “Immunocal is “A natural source of the glutathione precursor cysteine for the maintenance of a strong immune system” and has awarded Immunocal a Natural Health Products Directorate (NHPD) based on the credibility, strength and quality of evidence provided to support the claim.

THE IMMUNE SYSTEM, IF KEPT STRONG, IS YOUR BEST “DEFENSE AGAINST SERIOUS ILLNESS”

You can order product at:
